The professional FOMEI photographic tables consist of a metal construction and a high-quality opal board. They are delivered in separate pieces which can be assembled into a solid table base. The 130 and 100 Big Tables and the 2 and 3 Mini Tables are sold together with a PETG Gr.Fr. opal 30/3 mm high-quality matt opal board made in Sweden. With this board you can rely on a constant permeability of light. The board is delivered in a flat position, covered with a protective plastic wrap, in a strong box. The combination of the solid table construction and the high-quality opal board is the right choice for shadowless photography.
